

SAVANT POWER MODULES

Revenue grade monitoring. Flexible real-time control. Personalized alerts. Any circuit. Any standard panel style. Incredible value.

Pair Savant Power Modules with any or all of your existing electrical circuits for precise monitoring of production and use, notifications for breaker trips or grid outages, and real time control to send power where you need it. Keep climate systems running during uncomfortable weather, or route power to the laundry room when you need it - even if the grid goes out.

Pick the circuits that are essential to keep your house humming, with the freedom to change your mind any time.
